

## Our local community involvement.

At Altrincham Children's Care we promote the children and young people's participation in community activities. Community involvement events are an excellent way for children / young People to gain valuable life skills. This also helps build their sense of identity and brings them into contact with people from different backgrounds, allowing them to learn about other cultures and experiences.

Our staff team will work with our children and young people to plan visits to community involvement events. Staff will also encourage our children / young people to tell us about events they would like to put on or attend, and were possible, staff will facilitate these ideas.
